

Tuck Point Diamond Blades

MK Diamond offers diamond blades for masonry pointing applications. Repair and restoration projects are quick and easy when using MK Diamond Contractor Series blades. Tuck point blades are used with angle grinders and tuck pointers for fast mortar removal, grout repair and cleaning of concrete applications.

All tuck point diamond blades can be used wet or dry.

Contractor Series Tuck Point Blades have a .250" width for fast and easy cleaning of mortar joints.

Repointing deteriorated mortar joints is one of the most effective and permanent ways of decreasing water entry into brickwork.

Contractor™
DIAMOND BLADE

Hoja de diamante / Lame de diamant

10% more Diamond than Standard Diamond Blades

SINTERED

Contractor Quality Tuck Points
